SALT LAKE, July 1.—T. H. Park, Senators Stewart and Poland, and Hon. J. C. Stanley, of London, arrived this evening for the purpose of looking after the Emma mine affairs.

C. J. Hillyer, who has been here for several days, reported that English owner of the Emma offered $500,000 for the Illiners, but there is a difference of two and a half millions between the parties.

Firemen's Election at Salem.

SALEM, July 1.—The election for Chief Engineer of the Salem Fire Department took place to-day. The candidates were Mr. A. B. Crossman, of Capital No. 1, and Mr. J. Brown, of Tiger No. 2. Each company worked energetically for its respective candidate. The vote at the closing of the polls stood: Crossman, 65, Brown, 64—giving Crossman a majority of one. Brown received 69 votes, but five of them are to be contested.

CALIFORNIA NEWS.

Dr. Bates, Health officer of San Francisco, says he has no doubt that that city is on the eve of a smallpox epidemic. The Board of Supervisors has ordered the city to be districted for vaccination, and all will be compelled to vaccinate.

The "Liberal Republicans" are grumbling because Mr. Wm. Gwin is sent to Baltimore and E. J. C. Kewen is nominated for Congress. What do those gentlemen expect to do in return for the rebel Democracy voting for the Radical Greeley? It strikes us if the chivalry can vote for the Philosopher, the Liberals might swallow the Duke. Two extremes have met.

Messrs. Turton & Knox, of Sacramento, have obtained a contract from the Southern Pacific Railroad Co. for the construction of fifty miles of road from Watsonville, the present terminus of the Southern Pacific line up the Salinas valley. This extension is to be in complete running order by the 1st of September, and reaches the vicinity of Soledad Mission, in Monterey county.

It is said that Senator Cole aspires to the nomination as member of Congress from the San Francisco District. He is backed by the Committee of One Hundred and opposed by the Central Pacific railroad interest. He believes, with the indorsement of the Committee of One Hundred, he can secure the Republican nomination and thus make his election certain. Then, in 1873 he will go in for Mr. Casserly's place in the Senate.

The earnings of the Union Pacific railroad for April were $[illegible],000. For the month of May the estimated earnings aggregate $812,000. The following statement of business for the three fiscal years ending April 30, 1872, has been issued by the company:

	1869-70	1870-71	1871-72
Gross Earnings	$8,364,993	$[illegible]933,961	$[illegible]079,753
Expenses	[illegible]	[illegible]	4,032,914
Net Earnings	$4,[illegible]494	$3,43[illegible]	$3,616,835

According to the returns of the State Board of Equalization the assessable value of the property in the State will reach this year over $500,000,000 as against $2[illegible],000 last year. San Francisco county alone this year will be set down at about $[illegible],000,000. Sacramento county jumps from $12,000,000 to $30,000,000. Sonoma last year $7,000,000, is now $20,000,000. Alameda county foots up to $35,000,000. The mountain counties remain pretty much stationary, and the southern and agricultural counties exhibit a large increase.

FAILURE OF KOOPMANSCHAP.—The business of importing cheap labor from China has sustained a serious discouragement by the failure of Mr. Koopmanschap, who was so prominently identified with this movement. This result is immediately due to his contracts in the South. He had brought over a large number of Chinamen for whom employment had been secured in the Southern States, paying their passage and giving each a small sum of money, for which they contracted to reimburse him from their wages. But the same fate that brought discomfiture upon Truthful James and his co-laborer, Mr. Wm. Nye, ruined Mr. Koopmanschap. The heathens collected their wages in the most circumspect, [illegible] Christian-like manner, but—doubtless with a smile that was child-like and bland—refused to pay him one cent, and he then discovered that he was entirely without any means of compelling them to do so. Hence his bankruptcy, and a disparity on his balance sheet between his liabilities and assets of about one quarter of a million.

An editor out west became a martial and was made Captain. On parade instead of "two paces in front—advance," he unconsciously exclaimed "[illegible] two dollars a year in advance." He was court martialed and sentenced to read his own papers.

POLITICAL NOTES.

Greeley is getting vigorous support from an unexpected quarter. A dispatch says that the Mexican journal *[illegible]* warmly favors him for President. Perhaps, though, it is President of Mexico. The telegram is not explicit.

Brick Pomeroy says it will do very well for Greeley, after having kindled a fire which consumed the Southern edifice, to declare his willingness to adopt an orphan snatched from the ruins, especially when the time is not far distant when that orphan will inherit a large estate.

Charles Francis Adams was nominated for the Presidency at Oberlin, Ohio, a few days since, by the anti-secret society convention there assembled. As Mr. Adams is a Mason of the royal arch degree, it is clear that these anti-secret society chaps are not exactly consistent in their selection.

Hon. William S. Groesbeck, the candidate of the Anti-Greeley Liberals, it is said will neither accept nor decline until after the Baltimore Convention, and means to cultivate the opportunities for indorsement at Baltimore. He was a War Democrat, and is favored by August Belmont, Chairman of the Democratic National Committee, who is opposed to Greeley.

Greeley's Democratic supporters in New York are neatly complimented by the *World* in the remark that "If the sheep were fairly separated from the goats it would be found that Mr. Greeley's supporters in this city consists almost entirely of that class of Democrats whom he has been accustomed to denounce in the *Tribune* as the dregs and offsprings of creation."

The following coalition ticket has been nominated in Illinois: For Governor, Gustavus A. Koerner; Lieutenant Governor, Charles Biedy; Secretary of State, Edward Rummella; Auditor, Daniel O'Hara; Treasurer, Charles B. Samphire; Attorney, Lawrence Fasden;—three Liberals and three Democrats. The nominations were ratified and a mixed electoral ticket put in the field.

General Sherman is generally conceded to be a competent military critic. He declared, when visiting Sebastopol, that he considered Vicksburg a much harder place to take than that fort. Grant captured Vicksburg in less than half the time it took three armies under the best Generals in Europe to take Sebastopol. But, then, Grant is a "blockhead," you know, which evidently accounts for it.

The *World*, the organ of the New York Democracy, says: "The advantage which Democrats hoped from the Cincinnati movement was, that it would split the Republican party and keep the Democratic party united. Thus far, Mr. Greeley's nomination has had precisely the opposite effect. It has divided the Democratic party, and left the Republican party substantially united. We, therefore, quite agree with Mr. Belmont in regarding the nomination of Mr. Greeley at Cincinnati as 'a tremendous mistake.' It is one of the greatest political blunders ever perpetrated."

Much has been said of John Forsythe and his support of Horace Greeley. Here is what he says in a late number of his paper, the Mobile *Register*. Our readers can judge how much he supports Greeley. He says: "Greeley's advocates will be lucky if they elect him, even with a Baltimore indorsement. Our opinion is that this is more than doubtful, and for this plain reason, that the action of the Cincinnati Convention was a fiasco, in that it failed to answer the hopes and expectations, not only of Democrats, but of the true Liberals themselves. From a Liberal it degenerated into an illiberal movement, and the leading liberal Republicans have revolted against it. We still say that the Presidential problem is not yet solved. Unless there is a new programme, unless a real Liberal movement of the Democracy and the anti-Grantites of all shades of politics, can yet be inaugurated, we warn the zealous Greeleyites that the next President of the United States will be Ulysses S. Grant."

Crime, notably incendiarism, has become so rampant in East New York that the inhabitants have organized a Vigilance Committee, and propose a treatment of lamp-post and rope.

In all climates, tropical, temperate or frigid, it acts as a specific in every species of disorder which undermines the bodily strength and breaks down the animal spirits.

TUESDAY MORNING JULY [illegible] 1872

A Hated Alliance

E[illegible] a large number of our Democratic brethren think that their party, if it has lived this long, and through many difficulties [illegible] at last has [illegible] Man [illegible] like that sort of progress [illegible] admire the transmutation [illegible] butterfly back to [illegible] It is progress backwards, and isn't enchanting. Comes again the Eugene *Guard* with a protest against the present tendency to make Mr Greeley the Democratic candidate. It says that the leadership of a good honest and consistent Democrat for Presidential candidate is an indispensable condition in the great contest for victory. And the *Guard* is strongly of opinion that Mr Greeley doesn't fill the bill. It says

> **The plan and policy proposed by some to ratify the platform and nominations of the Cincinnati Convention would, in our opinion, be political suicide. It would divide the effective strength of the Democratic party, and would completely stifle the last spark of enthusiasm. That plan would be ruinous to the party, yea certain and eternal death**

The *Guard* is simply protesting against destiny. Mr Greeley will be the candidate, and that paper will be under necessity of supporting him with what grace it can.

But the *Guard* unquestionably speaks sentiments that belong to many of its party. It gives expression to their feeling of invincible repugnance toward Mr Greeley, who, of all men, is the one they find most distasteful to support. Almost any other person would be accepted as a Democratic candidate with less chagrin and humiliation. Chase would now be taken as a godsend if they could get him. Sumner, even, would be less objectionable. Fred. Douglass could not be more so. Any War Democrat, though that class was once denounced and reviled as unworthy of the Democratic name, would be accepted eagerly and joyfully. Men who cursed McClellan and voted for him with reluctance and even with detestation—how would they like an opportunity now to cast their votes for one who was a Democrat once, if only in name.

But it is not to be. Greeley is astride of the Democratic neck as the ape bestrode the neck of Sindbad the sailor, and like Sindbad's ape he refuses to be shaken off. He is proof, too, against the calabash of liquor with which Sindbad finally succeeded in ridding himself of his tormentor,—for Mr. Greeley is an ardent prohibitionist and neither drinks himself nor would allow any one else to. In fact he has always said that the Democratic creed, condensed, inspissated and reduced to its final elements, was simply this "Love Rum and Hate Niggers." He has also declared that "if there were not a newspaper or common school in the country, the Democratic party would be far stronger than it is." So, also, that "for the last thirty years every American slave holder on the African coast has accounted himself in politics a Democrat, so every one who chooses to live by pugilism, or gambling, or harlotry, is politically a Democrat. He believes in '*laissez faire*'—that 'the world is governed too much'—that 'the best government is that which governs least.' A purely selfish interest attaches the lewd, ruffianly, criminal, and dangerous classes to the Democratic party, by the instinct of self preservation—the preservation of their right to make gain of others' degradation."

Such journals as the *Guard*, and those for whom they speak, ponder these sayings revolve in their minds the leading acts of Mr Greeley's life, and don't feel very enthusiastic about voting for him.

San Francisco and St Louis

San Francisco is moving in earnest to obtain the benefits of another railroad across the continent. Aroused by the demand of the Central Pacific for the possession of Goat Island, and impressed with the necessity of securing a competing line across the continent at the earliest possible day, San Francisco has gone to work, and in conjunction with St. Louis proposes to aid the Atlantic and Pacific Railroad Company in completing their line. Journals of San Francisco publish a report of a Special Committee sent by that city to St. Louis and the East to ascertain the exact status and resources of the Atlantic and Pacific Company, and to negotiate with that Company and with the city of St Louis for taking stock in the road and assisting to push it to completion. The report is considered highly satisfactory. To avoid confusion it will be proper to bear in mind that the Atlantic and Pacific Railroad is substantially the same as the enterprise once known as the Southern Pacific Railroad. Or, to speak more precisely, the Southern Pacific was some time ago incorporated with the Atlantic and Pacific, and a magnificent grant of land, equal to that bestowed on the Northern Pacific was given to the consolidated corporation. Already the Company have 500 miles of road and branches, reaching out from St Louis, completed. Work is about to begin in earnest on the western end of the road. Contracts are let for the construction of the road from San Francisco as far south as Monterey county, and these contracts will be completed this fall. In order to push the whole road to completion by the earliest possible day a negotiation has been entered into whereby the cities of San Francisco and St Louis are to extend to the enterprise co-operative aid. Representative men of the two cities have conferred together and arranged the details. The proposition is that each city shall take $15,000,000 of stock in the road. This proposition is to be submitted to the voters for a decision. No doubt is expressed that it will carry. With the backing it will have in the cities, the road will pretty certainly be completed in three years. The undertaking is a magnificent one, and its benefits and results will be of national character.

County Affairs

On Monday the newly elected officials of Multnomah county assumed their duties. We cannot let the opportunity pass without saying a word in commendation of the administration of county affairs during the last two years. It has been conscientious, intelligent and thorough. The finances have been managed [illegible] and with fidelity to a high public [illegible]. The retiring officials have made a good and highly satisfactory administration. Messrs. [illegible] and Kenworthy, Commissioners, and Judge Hamilton are to be congratulated on their successful management of the county's business. The retiring Sheriff [illegible] officials have proved worthy and have gained in popularity during their term. We [illegible] to find the new administration quite as worthy.

Mr Samuel Bowles, a supporter of Greeley, is very candid in his judgment. He expresses the opinion that the Greeley [illegible]

made but a very small indentation on the Republican party, and adds that it is certain it has not broken or weakened the organization. He thinks, however, that it has planted deep dissensions among the Democracy and will break up their organization if Greeley is nominated at Baltimore. In that event he says there will surely be a third [illegible] which insures the re-election of Grant.

Amended Postal Law

[illegible] the last session [illegible] new postal bill which [illegible] [illegible] interesting [illegible] innovations is the introduction of the postal card system. This feature is borrowed from Great Britain. It is a very simple contrivance being merely an open card on one side ruled for the letter and the other for the address. The card bears a stamp and costs only one cent. All the post offices will soon be supplied with them. A [illegible]

Legislation of a more stringent character than heralded their advent in England has been provided to prevent the postal cards from being improperly used so that citizens will not be subjected to the annoyance which followed their introduction on the other side of the Atlantic. The idea is a good one and for ordinary communications may be expected to be extensively patronized. There will be no further borrowing of three cent stamps and no more expletives objectionable to [illegible] over unmucilaged envelopes. It may also be anticipated that one result of the postal cards will be to again place the United States at the head of the world in the number of letters passing through the postoffice, that place having been temporarily occupied by Great Britain last year consequent upon the enormous use of the half penny postal cards.

There is also another change of some moment—the reintroduction of the one cent newspaper stamp. The new law provides for the use of a one cent stamp on transient printed matter for a weight of every two ounces or less. Small circulars and many newspapers which formerly cost two cents for mailing may, therefore, under the new law, be mailed for one cent.

The Orangemen propose to parade again this month in New York on the anniversary of the Battle of the Boyne. It would be safe to predict that they will pass unmolested this time. The bloody lesson of a year ago was worth something.

THE TERRITORIES

Captain Wright, of the *Olympia* will soon run his boat on Puget Sound as an opposition boat.

Hon Hiram Knowles has been reappointed Judge of the Second Judicial District in Montana.

On the 17th of June 2 000 Chinamen commenced work on the Utah Montana and Idaho Railroad.

Four hundred head of American blooded cattle have recently been brought to Montana from the Eastern States.

The Masonic fraternity at Helena are engaged in erecting a fine temple at that place for the purposes of their Order.

A silver button weighing 308 pounds avoirdupois was turned out at the reduction works at Helena the other day.

Burglaries are quite common in Walla Walla, and unless the operators cease there will be a "neck tie sociable" soon.

The Helena *Herald* formally announces General John E Blaine a brother of the late Speaker of the House of Representatives as a candidate for Delegate to Congress from Montana.

The last Congress awarded to the several Territories sums as follows: Arizona, $35 000; Colorado, $16 300; Dakota, $34 300; Idaho $44,400; Montana, $16 500; Washington, $15,000.

Colorado has a population of 75 000, and the assessed value of the property in the Territory is $24,000,000. It has no public debt, but has a surplus in the treasury of $60 000, and no taxes are to be levied for the current year.

Cadyville on the Snohomish river, must be a promising place or else a great resort for travelers. There are less than a hundred inhabitants in the city, and there have been two hotels in that place for years. Now there are two more in course of construction.

The *Tribune* says: It is reported that contracts have been recently let for the clearing and grading of two more sections of the railroad. One, running into Olympia, is said to have been given to Captain J F Kidder, the other, running to the Puyallup, to J L Hallett.

The Olympia *Tribune* of June 29th says: This morning three wagons with 8,000 pounds of oats and a lot of baggage started for the railroad camp at Judge McFadden's, in Lewis county. Nearly every day such wagons leave town, all carrying the baggage and other effects of men leaving town to work on the railroad.

A letter from Yakima published in the *Mercury* says: "This country is a perfect world of grass, and stock looks fine. I like the Yakima Valley better than any other portion of the country. The rye grass there is taller than a man on horseback. On our ranch we cut over one hundred tons of hay this year but of all the countries in the world for wind I think The Dalles is ahead, the sand and gravel fly far beyond what you can possibly imagine."

BRITISH COLUMBIA

A large wharf at Esquimalt fell with a crash one day last week. The wreck was sold for fire wood.

The police department of New Westminster has become corrupt, and the *Colonist* demands a rigid investigation.

The Victoria *Colonist* says there are 61 cases of small pox in Portland not a word of which is true, there being no cases of small pox here at all.

A man named Dotson was killed at Nanaimo on Wednesday last by another man named Bell. The trouble between them originated through jealousy, Dotson being more intimate with Bell's Indian woman than Bell could tolerate.

The [illegible] of the 2[illegible]th of June says: On the [illegible] an supplemental estimates for 1872 [illegible] amounting to $50[illegible] were laid on the table of the House of Commons. The following items appear in the list: Canadian Pacific Railway (to [illegible] survey) $[illegible] 000; steam service between San Francisco and Victoria $4 000; light houses and coast service $[illegible] 200; Indians $18 174; further for mail service to British Columbia $[illegible] 000; public works $39 [illegible]

The British [illegible] of the 25th ult contains the following notice:

DIED.—On the 2[illegible] inst, on board the P & O steamer *Malta*, on his way home from Bombay, Lieut S H Dickens, R N, of H M S *Topaze*, fifth son of the late Charles Dickens. Many of our readers were well acquainted with this gentleman, who was on this station for some time.

WHO IS OLD.—A wise man will never rust out. As long as he can move or breathe he will be doing something for his neighbor or posterity. Almost the last hour of his life Washington was at work. So were Young, Howard, and Newton. The vigor of their lives never decay. No rust marred their spirits. It is a foolish idea to suppose that we must lie down and die because we are old. Who is old? Not the man of energy, not the day laborer in science, art, or benevolence, but he only who suffers his energies to waste away and the spring of life to become motionless, on whose hands the hours drag heavily, and to whom all things wear the garb of gloom. Is he old? should not be asked, but is he active? can he breathe freely and move with agility? There are scores of gray headed men we should prefer in any important enterprise than young men who fear and tremble at approaching shadows, and turn pale at a lion in their path, at a harsh word or a frown.

[illegible] gives an account of the finding near Malheur City [illegible] remains of an animal which indicate it to have been of enormous proportions. The tusks were four feet in diameter at the base and were ten feet in length. The portions of the head found show that the animal was two feet wide between the eyes. The bones found have been sent to Rev Thomas Condon, the Oregon geologist.

During the fire at Canyon City on the [illegible] but an account of which is given elsewhere Charles G Castle Esq by over exerting himself in his efforts to arrest the flames, burst a blood vessel and died almost instantly. He was an old resident of Grant county and was universally respected for his many good qualities. He was the Treasurer elect of the county, but had not yet entered upon the duties of his office.

The Dalles *Republican* of the 29th ult says: A young gentleman a short time since went to pay his regular attentions to his sweetheart. While thus engaged, the paternal relative of the young lady entered the parlor, and presenting our hero with a piece of bread and butter with sugar on it patted him on the head and said kindly: "There sonny take that and run home now it's nearly 9 o'clock and your ma will be anxious about you." Tableau and exit youth. Strange, but fact.

A destructive fire occurred at Canyon City on the night of June 26th. A correspondent says: The fire had been set or accidentally caught in the stable of Steve Hall at the south end of Main street. At the first alarm all seemed to be hopeless as there was a stiff breeze from that direction. Unfortunately for us the Canyon City Hydraulic Water Works were not yet perfected. The process of laying the pipes was, at the date of the fire, going on and nearly completed. The dwelling house and stable of Hall, and the dwelling house of Lauflower Castle and Sautenfall were entirely destroyed. The loss of property is comparatively small perhaps not exceeding $10,000. Nothing but the indomitable will and energy of our citizens saved the whole town from being burned, as the fire started at the south end of Main street the wind carrying the flames and fire brands all over the place.

An illiterate negro preacher said to his congregation: "My bredren, when de fust man Adam was made, he was made ob wet clay and set up agin de palings to dry." "Do you say," said one of the congregation, "dat Adam was made of wet clay, an' set up agin de palings to dry?" "Yes sir I do." "Den who made de palings?" "Sit down sir," said the preacher sternly, "such questions as dat would upset any system ob theology."

The Pope at his reception at the Vatican of the German Literary Club recently, said that the persecution of the Catholics in Germany had commenced, but that it was folly, and that the church remained triumphant. His closing words, referring to the course of Bismarck were: "Let us pray to our Father in Heaven that the stone may fall that will complete the overthrow of Colossus."

Remarkable Cure of Mr Abram Tully

San Jose, August 2 1871

DR A M LOryea & Co —Some two years since I was taken down with Inflammatory Rheumatism, and was for some time treated by two physicians, but got no better. I tried nearly every remedy I heard of but nothing seemed to do me any good until about two weeks ago I was advised by Judge J Johnson to try your UNK WEED REMEDY. I procured one bottle and was entirely cured. For six weeks before taking the UNK I was compelled to go upon crutches. I consider your remedy a great blessing to suffering humanity and shall deem it my duty to inform all Rheumatics of its great virtues. Yours etc

TUESDAY MORNING, JULY 2, 1872

CITY.

OFFICIAL CONDUCT.—So far as our observation has extended, the members of the Metropolitan Police force of Portland have been quite free from acts of official cruelty. There have been a few exceptional cases where policemen, under the garb of authority, have exercised unwarranted violence and inflicted unnecessary cruelty on persons who, under the influence of liquor, have resisted the officers of the law. We have been informed of a case which occurred in this city on last Sunday. A fellow had become so overpowered with drugged whisky that he sank down on the sidewalk near the corner of Taylor and Third streets. In that helpless condition he was discovered by two police officers. He was found to be unable to stand alone. A gentleman who was an eye-witness of the occurrence states that the officers, instead of either hauling or carrying him to jail, took their canes and hooked them in his coat, under the arm pits, and actually *dragged* the drunken wretch along the sidewalks toward the jail. Our informant states that there were a number of persons who witnessed the disgraceful scene, and expressed in strong language their disgust and indignation. We have no desire to do any one injustice, but if this is the case, it is shocking and cruel, and the officers committing the offense ought not to be shielded by the mask of authority from the punishment that perpetrators of such unwarranted acts deserve. Because a man is intoxicated, that is no reason why he should become an object of ruffianly violence. For the credit of all concerned, we hope there is some mistake about the matter.

FATALLY BURNED.—A small boy named Asa Casey, living at the corner of Fifth and College streets, was so badly burned on last Saturday that he died of the effects yesterday forenoon. From the circumstances of the case it appears that the boy, in company with several play fellows, went out to see the steam paddy work along the line of the railroad. After playing around a while the boys found some powder which was used by the men in blasting. Young Casey filled his pockets with the dangerous combustible, and the boys soon after started to return to the city. On the way the little fellows began to experiment with the powder by touching off a few grains at a time. While so engaged Asa allowed one of his sleeves to catch on fire. To extinguish it he foolishly ran his hand in his pocket. The result can easily be imagined. The powder exploded, burning the little fellow shockingly. He lingered in great pain until yesterday and expired. Deceased was aged about eight years. It is a sad and afflicting event to the parents. Boys should profit by this accident and learn not to amuse themselves with such a dangerous plaything as powder.

A SOCIAL TIME.—After the installation of the officers of Minerva Lodge, I. O. O. F., the members of the Lodge repaired to the restaurant of Meier & Schmeer and partook of bountiful refreshments served up for the occasion; in fact a regular banquet was given, and was highly enjoyed by those present. After supper several speeches were made by the brethren, and from their tenor the utmost harmony and good feeling prevails among the entire membership of the Lodge, and their prosperity is a proof of such being the case. From a beginning of nine members Minerva Lodge has now a membership of seventy who are unanimous in promoting the objects of the order, and promulgating the principles of Friendship, Love and Truth. Among the Lodges of Odd Fellows in the city none embrace more warm hearts or active hands in works of benevolence and charity than Minerva Lodge No. 19.

THE NEW COUNTY OFFICERS.—On yesterday morning the new set of County officers took the places of their predecessors. Mr. Caywood, the Sheriff, appointed W. R. Sewall, Deputy Sheriff, and John P. Ward, jailor. Mr. Harris, the County Clerk, appointed the following: James A. Waters to have special charge of the business and records of the County Court and A. E. Borthwick, Recording Clerk. The gentlemen appointed by these officers were all deputies under Messrs. Parrish and James, the retired Clerk and Sheriff, and are well qualified for their several positions. Mr. Durham, District Attorney, also took charge of the prosecution of the criminal business in the Circuit Court, and the new board of County Commissioners, Messrs. McCormick and Silver, also entered upon the discharge of their duties. So the affairs of the government of Multnomah glide smoothly on.

INTRUSIVE BOVINES.—Five cattle of the kine [illegible] were observed on Sunday evening at a late hour in the Plaza inclosure. Some person had accidentally or by design broken down one of the gates, and the cows were luxuriating in "high clover." No blame is attached to the very improper conduct of the kine, for there is no accounting for the tastes of a hungry cow when rich clover and luxuriant timothy is in sight. But the culprit who broke down the gate ought to suffer. He was probably some unoffending soul who reasoned that the grass belonged to everybody, and consequently was the property of no one in particular, and could be appropriated by the cows on general principles. We earnestly commend to his prayerful perusal a certain city ordinance which passed the Common Council last week.

ARRESTED FOR PERJURY.—Ah Look, a witness in the case of the State vs Chin Gung and Con You, arraigned for larceny before the Circuit Court yesterday, was arrested for perjury. It appears that Ah Look was one of the principal witnesses in the Police Court against the defendants and swore that he had seen Chin Gung and Con You, throw the purloined goods out of the house where the property had been stolen. When introduced as a witness before the Circuit Court he denied everything which he had stated before Judge Denny. On motion of District Attorney Gibbs the defendants were discharged from custody, and the witness was arrested on a charge of perjury. He is now in the county jail.

INSTALLATION.—At a regular meeting of Minerva Lodge No. 19, I. O. O. F., held last evening, July 1st, 1872, at the Odd Fellows' Temple, the following officers were installed in their respective offices for the current term, by M. W. D. D. G. M., Chas. von Wintzingerode: Elective Officers—Alb. Bartsch, N. G.; J. Fred Miller V. G.; Wm. Pfunderpat, R. S.; C. Meier, Treasurer; John Klosterman, P. S. Appointed Officers—A. Gisner, W.; A. Goldsmith, O. G.; A. Ehmann, C.; J. S. Keller, J. G.; Chas. von Wintzingerode, R. S. of N. G.; J. A. Wolf, L. S. of N. G.; Alb. Jubitz, R. S. of V. G.; Louis G. Pfunder, L. S. of V. G.; F. W. Schulz, R. S. S.; P. Hagner, L. S. S.

ALMOST AN ACCIDENT.—Yesterday evening as a locomotive and tender were coming down the track across Salmon street, a horse attached to a buggy, in which were seated two gentlemen, became frightened and could not be held back, but plunged across the track just in front of the cow-catcher, escaping it not more than a foot. The escape spoiled an item for us, but was fortunate for the buggy. So we thought this would be a good opportunity to suggest that persons intending to drive fast horses across the railroad track, to go a little slow, as in the instance in question the escape was certainly a very narrow one.

"ORPHEUS."—We are in receipt of the *Orpheus*, a repository of music, art and literature, published by William A. Pond & Co., New York, S. D. Russell & Co., Boston, and M. Gray, San Francisco. Butler, who was sentenced by Judge Upton yesterday for adultery, was taken in the afternoon by Sheriff Caywood to Salem, and placed under the paternal care of "William Vadkins." Another accession will be made to the "Raccoon Brigade" on Wednesday in the persons of Maggie and William Marshall.

NEW BOARD.—The new board of County Commissioners—Messrs. S. J. McCormick and C. S. Silver—met yesterday morning at 9 o'clock. The proceedings will be found elsewhere. The court will probably be in session several days, for the transaction of county business. Judge E. Hamilton will hold over for two years longer.

If you have corns, bunions or bad nails, he cures them without pain or drawing blood. His charges are moderate. Ladies attended at their residences without extra charge.

TO SUPERINTEND.—Geo. W. Weidler took his departure on the steamer last evening for Nanaimo. He goes to superintend the repairs to be made to the *California*, now beached at that place.

LADIES' RELIEF SOCIETY.—The members of the Ladies' Relief Society are requested to meet at the vestry of the Presbyterian Church for the regular monthly meeting at 2 o'clock P. M. to-day.

REHEARSAL.—The rehearsal for the Fourth of July, will take place at Philharmonic Hall this evening at 8 o'clock. A brass band will be in attendance. A full attendance is desired.

DENIED.—The motion for a new trial made in the Circuit Court yesterday, before sentence was pronounced against William Marshall, was denied by Judge Upton.

REGATTA.—A meeting was held last evening by the members of the Portland Yacht Club, at which it was determined to hold a regatta on the Fourth.

DRAMATIC.

The New York *Mercury* says of Miss Leo. Hudson, who is well known to our theater goers, having played an engagement at Oro Fino Theater about two years ago under F. M. Bates: "This actress, after a protracted tour on the Pacific coast, returned to this city on the 5th inst., looking hale and hearty and decidedly increased in avoirdupois. She brought her 'Mazeppa' steed which she has rechristened 'Dolly Varden.' Miss Eva West, a young lady who has performed in chambermaid parts in several of the California theaters, accompanied her, with the view, we understand, of seeking an engagement in this city. Miss Hudson intends resting for the summer at her residence at Baltimore."

Speaking of Miss Mehlig's return to San Francisco, an exchange says: "Miss Mehlig gave four concerts in Portland to densely crowded houses. She will give a series of farewell concerts in this city previous to returning East." The same paper says of Chas. Vivian: "This favorite character vocalist is now in Portland, Oregon. He will play an engagement of two weeks at Oro Fino Theater, and we doubt if the Portland people will be willing to part with him then.

Miss Anna Swan, the noted Nova Scotian giantess, who was married about one year since in London to the great Kentucky giant, Bates, and who visited Portland two years ago, returned to New York the middle of last month from an extended European tour, accompanied by her husband.

Joe Murphy, after a professional tour through the Western States, returned to San Francisco a few days ago, and made his first appearance since his arrival, at the Metropolitan theater last evening.

AMUSEMENTS.

THEATER.—Oro Fino Theater was well filled last evening, on the occasion of the rendition of "Naval Engagements" and a "New Farce." The chief attraction of the evening was the splendid songs and sketches of Vivian. This evening a very attractive bill will be offered. "The Maniac Lover," followed by Vivian in his master songs and character sketches, and concluding with, "Twenty Years of Labor Lost."

The Amended Judiciary Act

The amendment to the judiciary act of the United States, whereby proceedings in the Circuit and District Courts are regulated, is of sufficient importance to warrant its insertion entire. We therefore give it a place:

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled, That whenever, in any suit or proceeding in a circuit court of the United States, being held by a justice of the Supreme Court and the circuit judge or a district judge, or by the circuit judge and a district judge, there shall occur any difference of opinion between the judges as to any matter or thing to be decided, ruled, or ordered by the court, the opinion of the presiding justice or the presiding judge shall prevail, and be considered the opinion of the court for the time being; but when a final judgment, decree, or order in such suit or proceeding shall be entered, if said judges shall certify, as it shall be their duty to do, if such be the fact, that they differed in opinion as to any question which, under the act of Congress of April 29, 1802, might have been reviewed by the Supreme Court on certificate of difference of opinion, then either party may remove said final judgment, decree, or order to the Supreme Court, on writ of error or appeal, according to the nature of the case, and subject to the provisions of law applicable to other writs of error or regard to bail and supersedeas.

Sec. 2. That no judgment, decree, or order of a circuit or district court of the United States, in any civil action at law or in equity, rendered after this act shall be reviewed by the Supreme Court of the United States, on writ of error or appeal, unless the writ of error be sued out, or the appeal be taken, within two years after the entry of such judgment, decree, or order; and no judgment, decree, or order of a district court, rendered after this act shall take effect shall be reviewed by a circuit court of the United States upon like process or appeal, unless the process be sued out, or the appeal be taken, within one year after the entry of the judgment, decree, or order sought to be reviewed: *Provided*, That where a party entitled to prosecute a writ of error or to take an appeal is an infant, or *non compos mentis*, or imprisoned, such writ of error may be prosecuted, or such appeal may be taken, within the periods above designated after the entry of the judgment, decree, or order, exclusive of the term of such disability. The appellate court may affirm, modify, or reverse the judgment, decree, or order brought before it for review, or may direct such judgment, decree, or order to be rendered, or such further proceedings to be had by the inferior court as the justice of the case may require.

Sec. 3. That the Supreme Court may at any time, in its discretion, and upon such terms as it may deem just, and where the defect has not injured and the amendment will not prejudice the defendant in error, allow an amendment of a writ of error, when there is a mistake in the teste of the writ, or a seal to the writ is wanting, or when the writ is made returnable in a day other than the day of the commencement of the term next ensuing the issue of the writ, or when the statement of the title of the action or parties thereto in the writ is defective, if the defect can be remedied by reference to the accompanying record, and in all other particulars of form where the defect has not prejudiced, and the amendment will not injure, the defendant in error; and the Circuit and District Courts of the United States shall possess the like power of amendment of all process returnable to or before them.

Sec. 4. That a bill of exceptions hereafter allowed in any cause shall be deemed sufficiently authenticated if signed by the Judge of the Court in which the cause was tried, or by the presiding Judge thereof, if more than one Judge sat on the trial of the cause, without any seal of Court or Judge being annexed thereto; and all process issued from the courts of the United States shall bear teste from the day of such issue.

Sec. 5. That the practice, pleadings, and forms and modes of proceeding in other than equity and admiralty causes in the Circuit and District Courts of the United States shall conform, as near as may be, to the practice, pleadings, and forms and modes of proceeding existing at the time in like causes in the courts of record of the State within such circuit or District Courts are held, any rule of court to the contrary notwithstanding: *Provided, however*, That nothing herein contained shall alter the rules of evidence under the laws of the United States and as practiced in the courts thereof.

Sec. 6. That in common-law causes in the circuit and district courts of the United States the plaintiff shall be entitled to similar remedies, by attachment or other process, against the property of the defendant, which are now provided for by the laws of the State in which such court is held, applicable to the courts of such State, and such circuit or district courts may, from time to time, by general rules, adopt such State laws as may be in force in the State in relation to attachments and other processes, and the party recovering judgment in such cause shall be entitled to similar remedies upon the same, by execution or otherwise, to reach the property of the judgment debtor, as are now provided by the laws of the State within which said circuit or district courts shall be held in like causes, or which shall be adopted by rules as aforesaid: *Provided*, That similar preliminary affidavits or proofs, and similar security as required by such laws, shall be first furnished by the party seeking such attachment or other remedy.

Sec. 7. That whenever notice is given of a motion for an injunction out of a circuit or district court of the United States, the court or the judge thereof may, if there appear to be danger of irreparable injury from delay, grant an order restraining the act sought to be enjoined until the decision upon the motion. Such order may be granted with or without security, in the discretion of the court or judge: *Provided*, That no justice of the Supreme Court shall hear or allow any application for an injunction or restraining order except within the circuit to which he is allotted, and in causes pending in the circuit to which he is allotted, or in such causes at such place outside of the circuit as the parties may in writing stipulate, except in causes where such application cannot be heard by the circuit judge of the circuit, or the district judge of the district.

Sec. 8. That no indictment found and presented by a grand jury in any district or circuit or other court of the United States shall be deemed insufficient, nor shall the trial, judgment or other proceeding thereon be affected by reason of any defect or imperfection in matter of form only, which shall not tend to the prejudice of the defendant.

Sec. 9. That in all criminal causes the defendant may be found guilty of any offense the commission of which is necessarily included in that with which he is charged in the indictment, or may be found guilty of an attempt to commit the offense so charged: *Provided*, That such attempt be itself a separate offense.

Sec. 10. That on an indictment against several, if the jury cannot agree upon a verdict as to all, they may render a verdict as to those in regard to whom they do agree, on which a judgment shall be entered accordingly; and the cause as to the other defendants may be tried by another jury.

Sec. 11. That any party or person desiring to have any judgment, decree, or order of any district court reviewed on writ of error or appeal, and to stay proceedings thereon during the pendency of such writ of error or appeal, may give the security required by law therefor within sixty days after the rendition of such judgment, decree, or order, or afterward with the permission of a justice or judge of the said appellate court.

Sec. 12. That in all criminal or penal causes in which judgment or sentence has been or shall be rendered, imposing the payment of a fine or penalty, whether alone or with any other kind of punishment, the said judgment, so far as the fine or penalty is concerned, may be enforced by execution against the property of the defendant in like manner as judgments in civil cases are enforced: *Provided*, That where the judgment directs that the defendant shall be imprisoned until the fine or penalty imposed is paid, the issue of execution on the judgment shall not operate to discharge the defendant from imprisonment until the amount of the judgment is collected or otherwise paid.

Sec. 13. That when in any suit in equity, commenced in any Court of the United States, to enforce any legal or equitable lien or claim against real or personal property within the district where such suit is brought, one or more of the defendants therein shall not be an inhabitant of or found within said district, or shall not voluntarily appear thereto, it shall be lawful for the Court to make an order directing such absent defendant to appear, plead, answer, or demur to the complainant's bill at a certain day therein to be designated, which order shall be served on such absent defendant, if practicable, wherever found, or, where such personal service is not practicable, such order shall be published in such manner as the Court shall direct, and in case such absent defendant shall not appear, plead, answer, or demur within the time so limited, or within some further time, to be allowed by the Court in its discretion, and proof of the service or publication of said order, and of the performance of the directions contained in the same, it shall be lawful for the Court to entertain jurisdiction, and proceed to the hearing and adjudication of such suit in the same manner as if such absent defendant had been served with process within the said district, but said adjudication shall, as regards such absent defendant without appearance, affect his property within such district only.

Sec. 14. That when a poor convict, sentenced by any court of the United States to be imprisoned and pay a fine, or fine and cost, or to pay a fine, or fine and cost, has been confined in prison thirty days, solely for the non-payment of such fine, or fine and cost, such convict may make application in writing to any Commissioner of the United States Court in the district where he is imprisoned, setting forth his inability to pay such fine, or fine and cost, and after notice to the District Attorney of the United States who may appear, offer evidence and be heard, the Commissioner shall proceed to hear and determine the matter, and if on examination it shall appear to him that such convict is unable to pay such fine, or fine and cost, and that he has not any property exceeding twenty dollars in value, except such as is by law exempt from being taken on execution for debt, the Commissioner shall administer to him the following oath: "I do solemnly swear that I have not any property, real or personal, to the amount of twenty dollars, except such as is by law exempt from being taken on civil precept for debt by the laws of (State where oath is administered), and that I have no property in any way conveyed or concealed, or in any way disposed of, for my future use or benefit. So help me God." And thereupon such convict shall be discharged, the Commissioner giving to the jailor or keeper of the jail a certificate setting forth the facts.

Sec. 15. That if at any time after such discharge of such convict it shall appear that in taking the aforesaid oath he swore falsely, he may be indicted, convicted and punished for perjury, and be liable to the penalties prescribed in section thirteen of an act entitled "An act more effectually to provide for the punishment of certain crimes against the United States and for other purposes," approved March 3, A. D. 1825.

Sec. 16. That the fees of the Commissioner for the examination and certificate provided for in this act shall be five dollars per day for every day that he shall be engaged in such examination.

The Career of a Great Remedy.
Twenty years have been completed since it was first announced that a new vegetable tonic and alterative bearing the name of Hostetter's Stomach Bitters, had been added to the list of Preventive and Restorative medicines. The earliest advertisement which invited attention to the preparation stated that it had been used with great success in private practice, as a cure for dyspepsia, bilious complaints, constipation and intermittent fever. It was also claimed that the article possessed extraordinary properties. The people of every class tested its merits as a tonic, stimulant, corrective and restorative, and found that its effects more than fulfilled their hopes and expectations. From that time to the present its course has been upward and onward, and it stands to-day at the head of all medicines of its class, American or imported, in the magnitude of its sales and its reputation as a safe, agreeable and potent invigorant and restorative. For languor and debility, lack of appetite and gastric disturbances, so common during the summer months, it is absolutely infallible. Indigestion, bilious disorders, constipation, nervousness, periodical fevers, and all the ordinary complaints generated by a vitiated and humid atmosphere vanish under its renovating and regulating influence. This is its record, vouched by volumes of intelligent testimony, extending over a period of a fifth of a century, and comprehending the names of thousands of well known citizens belonging to every class and calling. In Europe it is thought a great thing to obtain the patronage of royalty for a patent medicine, but Hostetter's Bitters has been spontaneously approved by millions of independent sovereigns, and its patent consists in their endorsement.

SHORT PARAGRAPHS.

[illegible] May [illegible] Wilkins, colored, convicted of the murder of another negro in Georgia, was hung. A brother was hung for murder, and so was his father, and another brother [illegible] under the same penalty [illegible].

It is a remarkable [illegible] Bennett, who founded the New York [illegible] and Nathan [illegible], who was invited by Mr. Bennett to [illegible] with him [illegible] enterprise [illegible] were both carried [illegible] the same day.

The [illegible] is to be conducted on strictly temperance principles, no wines or liquors being allowed with the single exception of lager beer, which is to be given to foreign musicians exclusively. Native trumpeters are naturally indignant at being deprived of their horns.

General Crook went on the war path against the Apaches, accompanied by a number of friendly Wallapai Indians, as warriors and guides. Before he could strike a blow, he received an order from the Government to withdraw his forces. This so much surprised and disgusted his red-skinned allies, who were ignorant of the cause of his return to camp, that they called him a "cowardly old squaw." General Howard is said by this time to be convinced that Crook had better be let alone, and the Arizonians are all of the same opinion.

It takes a good deal of money to run a Government as vast and complex in its machinery as that of the United States. The appropriations made by the last Congress for that purpose, amount in the aggregate to $168,293,564, distributed as follows: Pensions, $30,480,000; postoffice, $28,660,292, army, $28,500,615, sundry civil appropriations, $19,528,524; legislative and executive, $18,587,916; navy, $18,296,734, Indians, $6,349,462; deficiencies, $6,629,760. rivers and harbors, $5,276,700, consular and diplomatic, $1,219,650, and military academy, $326,101.

A short time since the newspapers noticed a project for a ship railroad across Honduras, by which vessels were to be transported from ocean to ocean, to save the long journey round Cape Horn. A most flattering prospectus was issued professing to show that for an outlay of $75,000,000 the fortunate stockholders were yearly to net $50,000,000. The London *Economist*, a financial, journal took occasion to prick this bubble, and it burst. The latest accounts state that the promoters, finding it difficult to obtain subscriptions, have deferred their project till a more convenient season.

The Political Woman.

[From the London Anthropological Review.

A State with an hermaphroditic form of government, if even it could exist for a generation, is by nature doomed to extinction; it may, however, be worth while to consider what kind of being a woman would become who should take an active part in the election of a representative. As an energetic member of his committee she would have to fight the battle, foot by foot, with his opponents of either sex; she could not always sit at home and restrict herself to the use of a voting-paper, because she would then tacitly admit her unfitness for political life with all its hard work and its turmoil of speech-making; she would be like a foreigner giving a vote from a distance, without a knowledge of the qualities necessary for success in Parliament. It would be necessary for her to be thoroughly prepared for the fray, breeched instead of petticoated, with a voice hoarse from shouting, with her hair cropped close to her head, with deltoid muscles developed at the expense of her bust, prepared with syllogisms instead of smiles, and more ready to plant a blow than to shed a tear. She hurries from her husbandless, childless hearth, to make a speech on the hustings; with hard biceps and harder elbows she forces her way through the election mob; her powerful intellect fully appreciates all the ribald jests and obscene gestures of the British "rough;" she knows the art of con- "chaff" with a foul-mouthed costermonger; or, if necessary, she can defend herself, and blacken the eye of a drunken bargee.

She has learned all the catechism of politics, and when she mounts the platform she can glibly recite her duty to the world according to the side she was chosen. Experience has taught her the value of invectives, and she denounces her opponents with a choice selection of the strongest epithets; at first she speaks loud in a tone of contempt and self-satisfaction; she ends by losing her temper and brawling at the top of her voice. The crowd, never very indulgent, has no mind to respect a sex which makes no claim and has forfeited all right to forbearance. The hardened lines of her face are battered with apples, brick-bats, and rotten eggs—the recognized weapons of political warfare. Perhaps the very place where she stands is the mark of a storming party; and after enjoying the glory of an encounter with a prize-fighter (it may be of her own sex), she is at last brought to the ground by superior skill and strength. Then probably she retires to her home; but I, for one, had rather not follow her thither, or into that House of Parliament which she is destined one day to become an ornament.

THE SABBATH-LIKE STILLNESS OF DUBLIN STREETS.—Can you imagine a city of 260,000 inhabitants that has comparatively no noise, no teams in the streets, no smoke, no hurry, no manufactures? Yet such is Dublin. Sackville street at mid-day, one of the grandest thoroughfares in Europe, looks like Broadway, New York, about 2 o'clock in the morning—that is, the streetway looks like it, for that is the only time to get Broadway cleared of coaches and teams. But the sidewalks of Sackville street are very lively and very fashionable. They are not like the jostling sidewalks of New York or Boston; the sidewalks of Sackville street are nearly as wide as Washington street, Boston, and the promenading ladies and "swells" from the Castle, or the garrison, are never obliged to elbow their way in the approved fashion of an American city. The immense width of the street is silent and empty, except only for an occasional pigeon looking for wheat or a sparrow looking for a worm. Just think of a worm in Broadway! Ugh! the thought is unbearable; but in Sackville street—in the very center of it—I am sure that some silly sparrow, not knowing things by their aspect, often gulps an old gray-headed worm in mistake for his youngest son.—*Dublin Letter to the Boston Globe.*

FINANCE AND COMMERCE.

Portland Legal Tender rates, 88c buying; 89c selling.

Letters received by steamer from San Francisco do not speak encouragingly of the prospects of the Wheat market. The scarcity of tonnage and the immense quantity of grain pressing forward to market combine to depress prices. Prime round lots of Wheat in San Francisco are now being purchased at $1 65 per cental, and it is believed the price will soon go down to $1 50. These facts tend to weaken prices here.

During the last harvest year in California [illegible] cargoes of Wheat, aggregating [illegible] centals, valued at $[illegible], cleared from San Francisco. This year, if vessels can be procured, the amount will be very much greater. Since September last there have been shipped from this port direct to the United Kingdom eleven cargoes, aggregating 208,521 centals, valued at $474,717. Another cargo of 20,000 centals, the [illegible], is to be added this week. The exports from this port to San Francisco and other ports since August last have been [illegible] centals.

The New York *Shipping List*, of June [illegible], in its report of the Flour market, says: "California and Oregon Flour has arrived [illegible] but owing to the recent decline and the [illegible] of trade, [illegible] tolerable. We [illegible] sales of some 2,000 sks [illegible] brands, in lots, at $[illegible] [illegible] as $10 15. The San Francisco *Bulletin* of the 27th June has the following:

Next in importance to the knowledge that our own grain crops are abundant, is the probability as to our farmers securing a market for the surplus over from home consumption in Europe. [illegible] the *Mark Lane Express*, [illegible] the leading authority on grain matters in Great Britain, shows its weekly review of the grain trade [illegible] We [illegible] that [illegible] America [illegible] wanted in Europe. Northrup, 4 [illegible] wagon materials and 120 pcs plank; N. & F. 636 pkgs hardware; Booth, by Miller & Co., 35 pkgs iron; R. & S., 2 pianos; Gas Co. (Salem) 100 bbls lime; W. Mining Intelligence.

The "Big Ditch" in Baker county, some ninety miles in length, is now carrying water through its whole course. The supply is sufficient for a large number of miners. Arrangements are making to replenish the ditch by small streams along the route. When this is done the supply will be still better. The Baker *Democrat* says that the mines opened and worked, thus far generally pay much better than even the most sanguine anticipated; some paying as high as $50 and $75 per day to the hand.

"Oregon Canal" is the name of another ditch in Baker county, some thirty-two miles in length. It is so planned and constructed that it can be made to furnish water to all the mines on Burnt river lying between its present terminus and Snake river. The mines which it covers are said to be good, and fair returns are expected.

About twenty miles north of Baker City, a very valuable copper mine has been opened. The mine is owned by Crane & Co. A pig of pure copper smelted from the ore is exhibited at Baker City. It is believed that the mine will prove a source of great wealth to its owners.

NATIONAL REPUBLICAN TICKET.

For President:
ULYSSES S. GRANT,
of Illinois.

For Vice President:
HENRY WILSON,
of Massachusetts.

For Presidential Electors,
[illegible]
[illegible]
[illegible]

Election, Tuesday, Nov. 5, 1872.

NATIONAL REPUBLICAN PLATFORM

[illegible]

The Republican Party [illegible]

[illegible]

2. Complete liberty and exact equality in the enjoyment of all civil, political and public rights should be established and effectually maintained throughout the Union by efficient and appropriate State and Federal legislation. Neither law nor its administration should admit of any discrimination in respect to citizens by reason of race, creed, color or previous condition of servitude.

3. The recent amendments to the National Constitution should be cordially sustained because they are right, not merely tolerated because they are law, and should be carried out according to their spirit by appropriate legislation, the enforcement of which can be safely trusted only to the party that secured those amendments.

4. The National Government should seek to maintain honorable peace with all nations, protecting its citizens everywhere, and sympathizing with all peoples who strive for greater liberty.

5. Any system of the civil service under which the subordinate positions of the Government are considered rewards for mere party zeal is fatally demoralizing, and we therefore favor a reform of the system, by a law which shall abolish the evils of patronage and make honesty, efficiency and fidelity the essential qualifications for public position, without practically creating a life tenure of office.

6. We are opposed to further grants of the public lands to corporations and monopolies, and demand that the National domain be set apart for free homes for the people.

7. The annual revenue, after paying current expenditures [illegible] the principal of the public debt, [illegible] may be derived from a tax upon tobacco and liquors, [illegible] raised by duties upon importations, which should be adjusted to aid in securing remunerative wages to labor, and to promote the industries, [illegible] and prosperity of the whole country.

8. We hold in undying honor the soldiers and sailors whose valor saved the Union. Their pensions are a sacred debt of the nation, and the widows and orphans of those who died for their country are entitled to the care of a generous and grateful people. We favor such additional legislation as will extend the bounty of the Government to all our soldiers and sailors who were honorably discharged and who, in the line of duty, became disabled, without regard to length of service or the cause of such discharge.

9. The doctrine of Great Britain and other European powers concerning allegiance, "once a subject always a subject," having at last, through the efforts of the Republican party, been abandoned, and the American idea of the right of an individual to transfer his allegiance having been accepted by European nations, it is the duty of our Government to guard with jealous care the rights of adopted citizens against the assumption of unauthorized claims by their former Governments, and we urge continued and careful encouragement and protection to voluntary emigration.

10. The franking privilege ought to be abolished and a way prepared for reduction in the rates of postage.

11. Among the questions which press for attention is that which concerns the relations of capital and labor, and the Republican party recognize the duty of shaping legislation so as to secure full protection and amplest field for capital, and for labor which creates capital, the largest opportunities and a just share of the mutual profits of these two great servants of civilization.

12. We hold that Congress and the President have only fulfilled an imperative duty in their measures for the suppression of violent and treasonable organizations in certain lately rebellious regions and for the protection of the ballot, and therefore they are entitled to the thanks of the Nation.

13. We denounce the repudiation of public debts, in any form or disguise, as a national crime. We witness with pride the reduction of the principal of that debt, and of the rates of interest upon the balance, and confidently expect that our excellent national currency will be perfected by a speedy resumption to specie payment.

14. The Republican party is mindful of its obligations to the loyal women of America for their noble devotion to the cause of freedom, their application for admission to further usefulness is received with satisfaction, and the honest demands of any class of citizens for additional rights should be treated with respectful consideration.

15. We heartily approve of the action of Congress in granting amnesty to those engaged in the rebellion and rejoice in the growth of peace and fraternal feeling throughout the land.

16. The Republican party propose to respect all rights reserved by the people to themselves, as carefully as the powers delegated by them to the State and Federal governments. It disapproves of resorting to unconstitutional laws for the purpose of removing evils by the interference with rights not surrendered by the people to either the State or National Government.

17. [illegible] encouragement of American commerce and shipbuilding.

18. We believe that the modest patriotism, the earnest purpose, sound judgment, practical wisdom, incorruptible integrity and illustrious services of U. S. Grant have commended him to the heart of the American people, and with him at our head we start to-day upon a new march to victory.
